Note Carefully Our Low Prices.

THE HARD TIMES.

Caused us to issue last season a net price list, thereby enabling us to give our patrons the benefit of the many thousands of dollars which it costs to get out a fine illustrated catalogue. We must say that it met with the hearty approval of all, and brought us many thousands of orders. We gratefully acknowledge the receipt of the many kind words of compliment and expressions of satisfaction from so many of our customers, and sincerely thank all those who spoke a word of recommendation to their neighbors and friends. It is a pleasure to know our efforts to please have been so generally appreciated. We are prepared this season to give better satisfaction than ever.

* * *

THE QUALITY OF OUR STOCK STRICTLY THE BEST.

Any who feared from our low prices that our stock might be inferior, were agreeably surprised to find that it was of the finest grade, and could not be excelled. This was shown us by the numerous orders received from the same people, and the many meritorious commendations we have from them. Our plants this season are finer than ever.

* * *

THE SIZE OF OUR STOCK IMMENSE.

We have millions of plants on hand this season, embracing only the best and most valuable varieties, such as we know will please all who receive them.

A Page of Finest Bedding Plants.

NEW AND CHOICE LARGE-FLOWERING CANNAS.

Nothing can be more effective for grouping on lawns or for large beds in parks, than these ever-blooming Cannas. They commence to flower in a very short time after planting, and are a mass of gorgeous colors until stopped by frost in Fall. 10 cents each, \$1.00 per dozen.

Flamingo—One of the finest solid crimson varieties yet introduced, with large flowers over four inches in diameter. They cluster around the stem in an even manner, giving the truss the grace and finish of a Hyacinth spike. Its habit is perfect, strong and compact.

Paul Marquant—One of the most pleasing and beautiful on account of its large size and distinct and novel color, a beautiful shade of bright salmon with a carmine tint.

Madam Crozy—The standard by which others are judged. It is now known and planted everywhere. Flowers very large; brilliant scarlet, bordered with golden yellow.

J. D. Cabos—Dark greenish maroon foliage, with a bronze, metallic luster; flowers bright orange or apricot, sometimes brightened with a pinkish tinge. One of the most distinct of the Cannas.

Capitaine P. DeSuzzoni—A good light-yellow spotted variety, with broad, rounded petals, produced in large, heavy spikes. The ground color is of a rich, canary yellow, while the entire flower is spotted with cinnamon-red; green massive foliage.

Secretary Stewart—Flowers of a bright garnet, borne in large spikes, the flowers being well separated on the spike; foliage green.

Queen Charlotte—The finest of all the gilt-edged varieties. The plant is furnished with heavy bluish green foliage; the enormous flower-spikes towering grandly above the foliage, bear a

beautiful bouquet of large flowers of perfect form, with petals of rich scarlet crimson, broadly banded with bright canary yellow.

Florence Vaughan—Undoubtedly the finest yellow spotted variety yet sent out. In color it is of a bright, rich golden yellow, spotted with bright red. The foliage is massive, and of a rich green color.

Alphonse Bouvier—A remarkably luxuriant grower, massive rich green foliage. Flowers large, and produced in profusion. Color, rich brilliant crimson when it first opens, changing to a deep dazzling crimson as the flowers fully develop.

J. C. Vaughan—Color, a deep vermillion orange, much deeper than "J. D. Cabos," with a satiny lustre; flowers large and well formed; foliage rich bronzy-purple. A good grower, free bloomer, and one of the very best bronze-leaved sorts.

Egandale—Especially valuable as a bedding variety, having dark, bronzy foliage similar to the old Indica varieties, but with large, bright cherry-red flowers of good shape and substance. Considered one of the very best dark foliage varieties.

Eldorado—The grandest of all the yellow Cannas, and the nearest approach to a pure golden yellow to date, being but very finely speckled with light red, which is noticeable only upon close examination.

Their varied tints of crimson, gold, bronze and green, and richly blotched, veined or margined, produce a brilliancy of coloring unequalled. Our list includes all the best standard kinds, such as Louise Beck, rich maroon; Gem City, golden-yellow spotted carmine; Golden Verschaffelti, bright golden yellow; Firebrand, fiery red; Yeddo, yellow blotched with green; Clouded Gem, crimson and cream with green edge; Progress, mottled red, green and bronze, Mme. Mageau, wine color edged with gold and green; Octofoon, green and gold with bright red shading; Petit Robert, maroon cut and margined yellow and green; Brightness, vermillion blotched with chocolate and green; Retta Kirkpatrick, bright green, yellow center; Setting Sun, crimson with golden edge; Verschaffelti, rich velvety crimson, the finest of all dark varieties; Rag Carpet, carmine edged chocolate red; Golden Bedder, bright golden yellow. 30 cents per dozen, \$2.00 per 100.

We call special attention to **HETHERANTHE**, the best of all bedding Geraniums. Foliage strong and striking, and of most perfect habit. Flower is a bright vermillion, of most pleasing shade, trusses exceptionally large and fine. Excellent for beds or pot. Try a bed of these. They will delight you.

Also Emile DeGirardin, the fine pink Geranium; L. Contable, beautiful rose color; White Swan, spotless white, and Mountain of Snow and Madam Salleroi, the two leading silver leafed Geraniums. 40 cents per dozen, \$3.00 per 100.

ALTERNANTHERA.

Alternantheras are the best plants used for "carpet-bedding," massing or ribbon line planting or general bedding. Their unique form and tints, and the uniform manner in which they always grow, make them unequalled for fine bedding work, and a garden is incomplete without their finishing touches. We grow them in immense quantities, and have both the red and yellow. 30 cents per dozen, \$2.00 per 100.

FINE FERNS.

No collection of plants is complete without Ferns. The selection we offer embraces the best varieties of this beautiful class of plants, whose diversity and gracefulness of foliage make them peculiarly fitted to combine with other fine plants and flowers.

The popularity of ferns has increased wonderfully in the past few years, and they are now indispensable in all choice floral decorations, and are especially valued for ferneries for room and table decoration.

Where there is moisture and shade most of the varieties succeed well when planted out-of-doors; they delight in a light soil mixed with sand and peat or leaf mould; good drainage must be provided, as stagnant water is fatal to success. Price 10 cents each.

AND OTHER LEADING VARIETIES.

PALMS.

Kentia Fosteriana—The Kentias are among the best of the palms for general cultivation, being very free from disease of any kind. This variety is graceful in habit, with bright green foliage, and as a decorative plant for the window, dinner table or conservatory, it scarcely has an equal. Price 25 cents each.

Kentia Balmoreana—This is sometimes called the "Curly Palm," and is recognized as among the best for all purposes, being capable of standing more ill-usage, perhaps, than any other. The leaves have a tendency to curl as the plant grows older, hence its popular title of "Curly Palm." Price 25 cents each.

Filifera Palm—(Washington Filifera). It has elegant dark green fan-shaped leaves, from which hang thread-like filaments. Price 15 cents each.

The plant is a compact grower, well adapted to pot culture.

Latania Barbonica—The well-known favorite Fan Palm, beautiful in all the stages of growth. No plant is more easily grown, and none more tenacious of life, enduring alike the dust, the cold and heat from open windows and gas-heated air of our dwellings. Price 15 cents each.

Phoenix Reclinata—This is one of the most exquisitely graceful among palms. Its wide-spreading gracefully-arching, fern-like leaves are elegant and effective for apartment decoration. It will stand much neglect without injury; fine for vases. Price 15 cents each.

SANSEVERIA ZEALANICA.

Sansevieria Zealanica.

A NEW DECORATIVE PLANT OF GREAT BEAUTY
AND VALUE.

A beautiful plant, splendidly adapted for the decoration of drawing-rooms and halls, as it stands drouth and dust with impunity. A plant which should be abundantly grown for positions out of the reach of sunlight, where other plants will not thrive. When you consider that it can be placed in any position in any room, and do well, its great usefulness is at once apparent. It has a singular beauty for decorative purposes, which other plants do not possess, and is useful both winter and summer. It is difficult to find a more unique or ornamental plant than this. Good size plants, 10 cents, extra large, 15 cents.

We would recommend to our customers in one vicinity to club together and order by express. Have the goods for all shipped in one box, and on receipt distribute to each person ordering. This will save a great amount in express charges, making the cost nominal to each one.

Kindly inform your friends of our generous offer this year, and send in their names, on receipt of which we will be pleased to mail them a copy of this list.
